

LifeSpeak Inc.

Quality Engineering

Reports To: Senior Manager of Quality Engineering

Location: Remote within the United States or Canada

Job Description:

LifeSpeak, a leading SaaS company in the digital wellness space, is seeking a Quality Engineer to join our team. This entry-level position is ideal for someone passionate about ensuring software quality and eager to grow their skills in quality assurance and testing.

Primary Responsibilities:

- **Perform Manual Testing:**

- Execute manual test cases to identify software defects and ensure product quality.
- Document and report bugs to the development team.

- **Develop Test Cases:**

- Write detailed, comprehensive, and well-structured test cases based on product requirements.
- Collaborate with developers and product managers to understand user stories and acceptance criteria.

- **Assist in Test Automation:**

- Support the development and maintenance of automated test scripts.
- Learn and apply automation tools and frameworks under the guidance of senior team members.

- **Maintain Test Documentation:**

- Maintain accurate and detailed test documentation, including test plans, test cases, and test results.
- Ensure documentation is up-to-date and reflects the current state of testing activities.
- **Participate in Agile Processes:**
 - Engage in daily stand-ups, sprint planning, and retrospectives as part of the agile development process.
 - Collaborate with cross-functional teams to ensure timely and quality delivery of software.

Requirements:

- **Educational Background:**
 - Bachelor's degree in Computer Science, Information Technology, or a related field, or equivalent practical experience.
- **Professional Experience:**
 - 1-2 years of experience in quality assurance or software testing.
 - Internship or coursework in quality assurance, software testing, or related areas is a plus.
 - Experience working in an Agile software development environments
- **Technical Skills:**
 - Basic understanding of software development and testing principles.
 - Familiarity with test management tools and bug tracking systems.
 - Exposure to programming languages such as Java, Python, or JavaScript is beneficial.
- **Analytical and Problem-Solving Skills:**
 - Strong analytical skills with attention to detail.
 - Ability to identify issues and think critically about potential solutions.
- **Communication and Collaboration:**
 - Good communication skills to collaborate effectively with team members.
 - Eagerness to learn and adapt to new technologies and methodologies.

What We Offer:

- Competitive salary and comprehensive benefits package.
- Flexible schedules and supportive remote work culture.
- Opportunities for professional development and career growth.
- A dynamic and supportive work environment that values innovation.

How to Apply: Candidates should apply by sending a resume and cover letter to careers@lifespeak.com.
